Year:

Major(s):

Background

Which math/CS courses have you taken?

Are you familiar with graphs (those consisting of edges and vertices)?

Are you familiar with basic probability (random variables and expectation)?

What do you expect or hope to get out of CS 280?

(continued on back)
The Important Stuff

What great movies/books/games/albums/shows have you seen/read/played/heard/watched recently?

If you could place 3 portals anywhere in the world, allowing you to instantly teleport yourself from one to another, where would you place them?

Tell me two interesting things about yourself.
