

For the rest of this week we will talk about priority queues, which are discussed in Chapter 21 of the text, pages 807 to 839.

Exam 2 will be on Friday, May 6. The class homepage has a list of topics for the exam, last fall's exam 2, and solutions to last fall's exam 2.

There will be an information meeting on the AIT-Budapest study away program tomorrow (Thursday, April 28) at 4:30 in King 123. If you are interested in combining a major or minor in CS with a study abroad experience, this would be a good thing to check out. Computer Science students go on all sorts of study away programs, but this AIT program is the most popular option.
