Over the weekend:

1. Read Java Bootcamp
2. Look at Java4Python
3. Read Weiss Chapter 1

The *Java Bootcamp* notes were written about 10 years ago by one of our former faculty members. They have the transition from 150 to 151 in just 8 pages.   Java4Python is a much longer document from the Net that does the same thing. There are links to both of these documents on the class home page: www.cs.oberlin.edu/~bob/cs151
